NEWS RELEASE FROM LUBBY NAVARRO

Thursday, July 16, 2015

At yesterday's monthly meeting of the School Board of Miami-Dade County, an item presented by School Board Member Lubby Navarro directing the Superintendent to explore the feasibility of expanding school choice opportunities for students through a Continuous Choice Enrollment Option for selected choice schools passed.

Miami-Dade County is a transient community with a steady influx of new families. Therefore, many parents in the community seek to obtain enrollment into a school choice option past the district's traditional school choice application deadline. Expanding choice opportunities for students through a Continuous Choice Enrollment Option will help ensure we maintain our public schools competitive.

"Exploring ways to further expand school choice opportunities year-round through a Continuous Choice Enrollment Option would be beneficial to our students, schools, families and community," said Ms. Navarro.
